

STEP2: A PE-ACH for SEPA

By Gilbert Lichter
CEO, EBA CLEARING

What infrastructure approach ?

What infrastructure approach ?

... a truly pan-European platform !

STEP2: A PE-ACH for SEPA

Key objectives:

A pan-European ACH connecting directly or indirectly the banks from all EU countries

Distribution of payment instructions to any bank operating in the EU

Processing new pan-E. instruments, based on new standards and latest technology, integrated and automated settlement

Achieving full compliance with overseer requirements

Progressively integrating domestic traffic

STEP2: A PE-ACH for SEPA

A very successful ramp-up with CREDEURO

A very successful ramp-up with CREDEURO

Direct Participants: 89

Indirect Participants: + 1,500

34 from Hungary

Full Receiver Capability

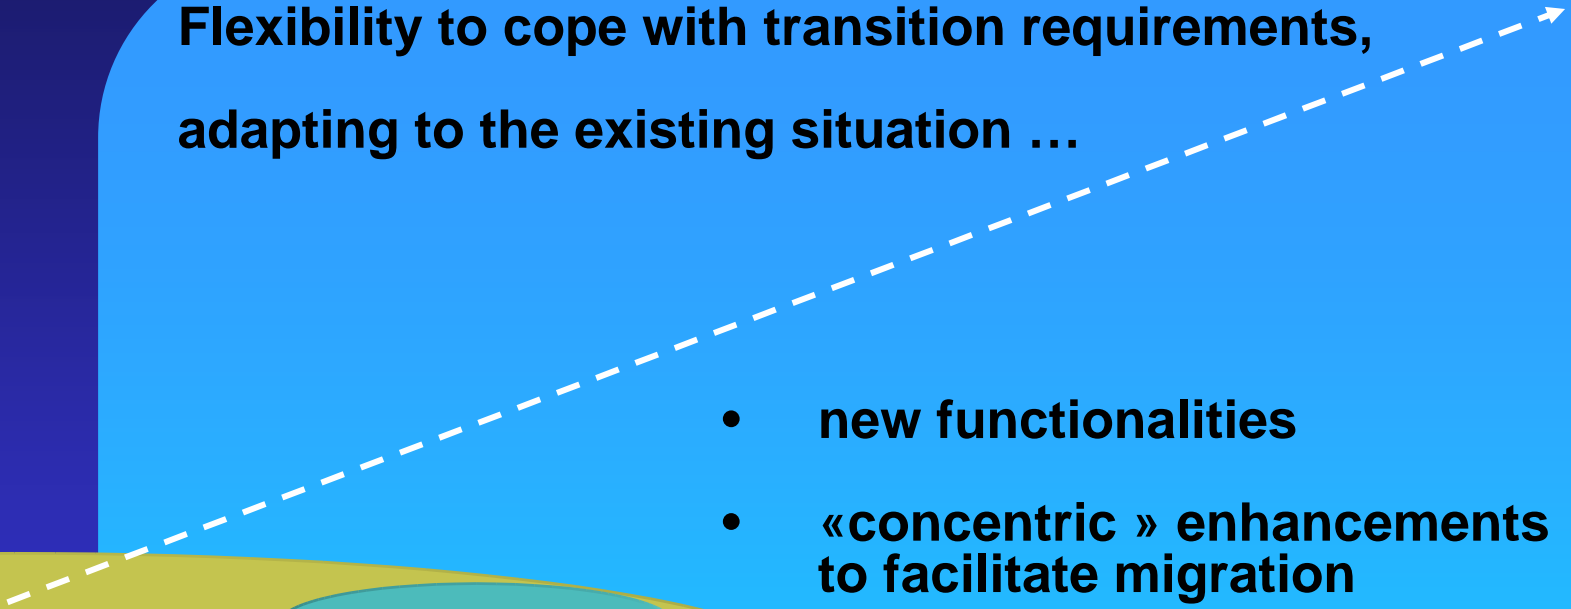

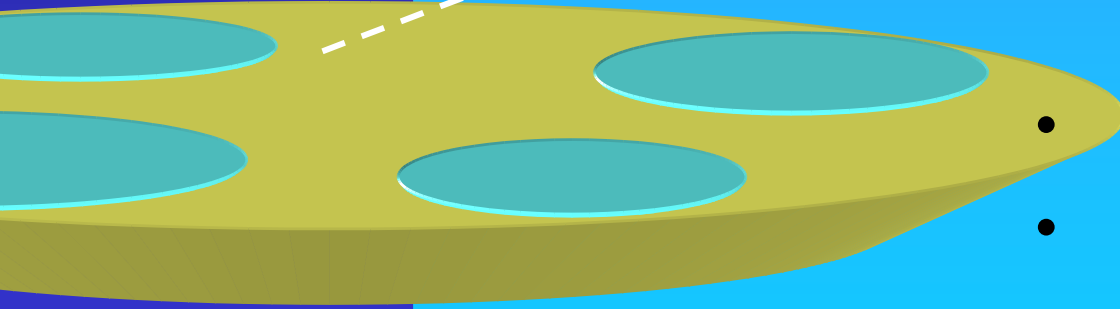

- in EMU12 : 11 countries
- in EU25 : 21 countries

**A single channel
for sending retail payments
to all banks in EU and EEA**

The basis for migrating domestic traffic

**Flexibility to cope with transition requirements,
adapting to the existing situation ...**

- 
- 
- **new functionalities**
 - **«concentric » enhancements to facilitate migration**
 - **multi-purpose DD**
 - **governance of shared platform**
 - **settlement options**
