

MAGYAR NEMZETI BANK
COLLECTOR COIN ISSUANCE PLAN
2022

SUMMARY

The Magyar Nemzeti Bank's (MNB) 2022 collector coin issuance programme contains 28 collector coins in 16 thematic schemes. The bank plans to continue six series launched earlier and to start three new series. The programme includes three gold, nine silver and six separate non-ferrous metal collector coins, but to promote the coins' value transferring role as widely as possible, non-ferrous versions will accompany the coins issued in precious metal finish.

The MNB reserves the right to change any aspects of the programme.

Exact data can be obtained from the decrees of the Governor published in the Hungarian Official Journal (Magyar Közlöny) before each issuance.

From 19 January 2022, the Hungarian Mint Ltd., the producer and distributor of collector coins, will offer a booking facility for the collector coins until stocks used in the booking facility last. Detailed information on the booking and purchase schedule can be accessed at www.penzvero.hu.

THE MAGYAR NEMZETI BANK'S 2022 COLLECTOR COIN ISSUANCE PLAN

1) The Hungarian discovery behind mRNA vaccines

Designer | András SZILOS

Size | 38.61 x 38.61 mm
