

**Charts to the Press Release on the aggregated balance sheet of credit institutions,
June 2020**

Chart 1 Annual real growth of households' outstanding borrowing^{1,2}

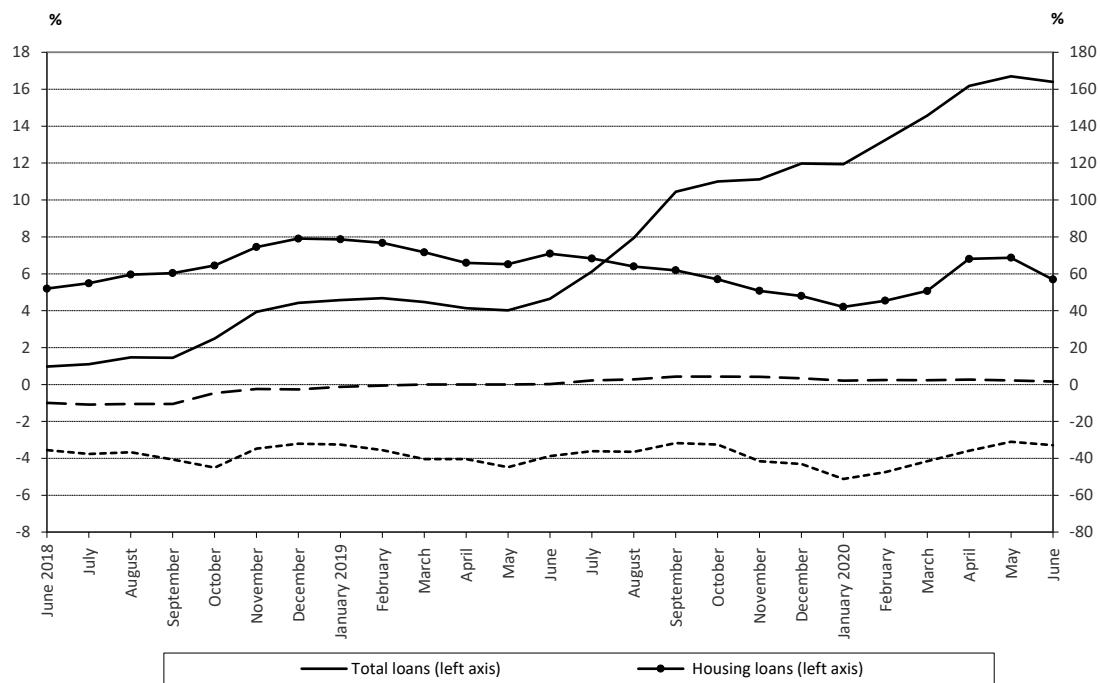

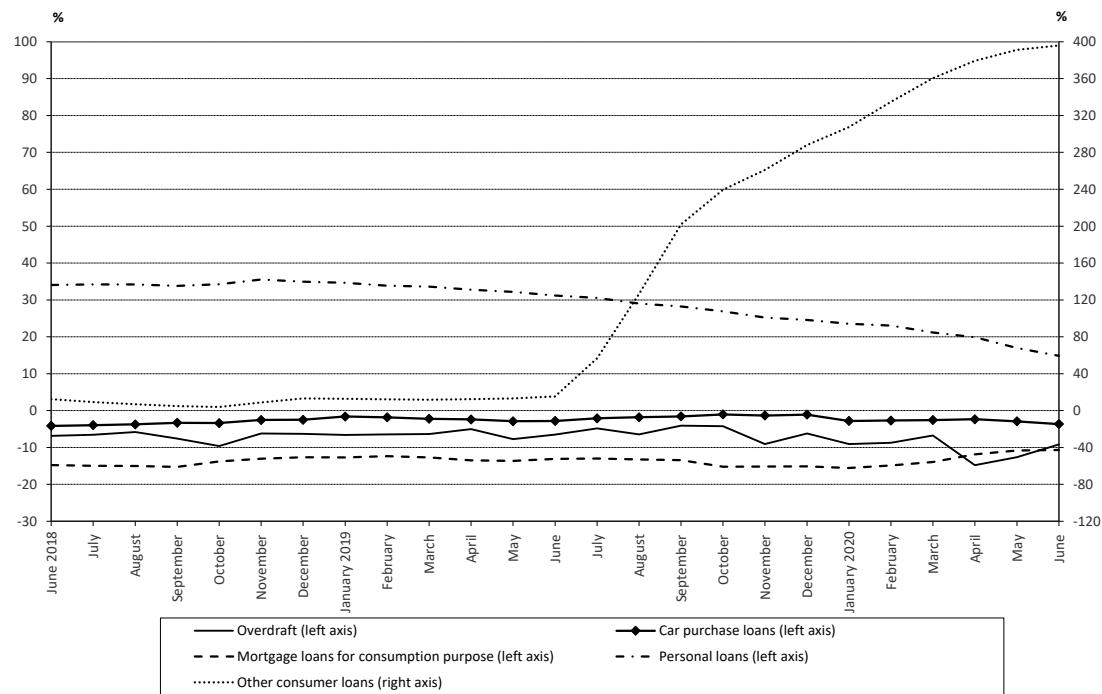

Chart 2 Annual real growth of households' consumer loans^{1,2,3}

¹ From April 2020, transactions data of both households and non-financial corporations reflect the effects of the Covid-19 pandemic and the government measures taken in response (e.g. the repayment moratorium).

² Transactions-based growth rate (see the [Methodological notes](#)).

³ The other consumer loans contains the amount of loans provided on the basis of Government Decree 44/2019 (III.12) loans to retail customers linked to the baby-expecting support.

Chart 3 Stock of households' outstanding borrowing⁴

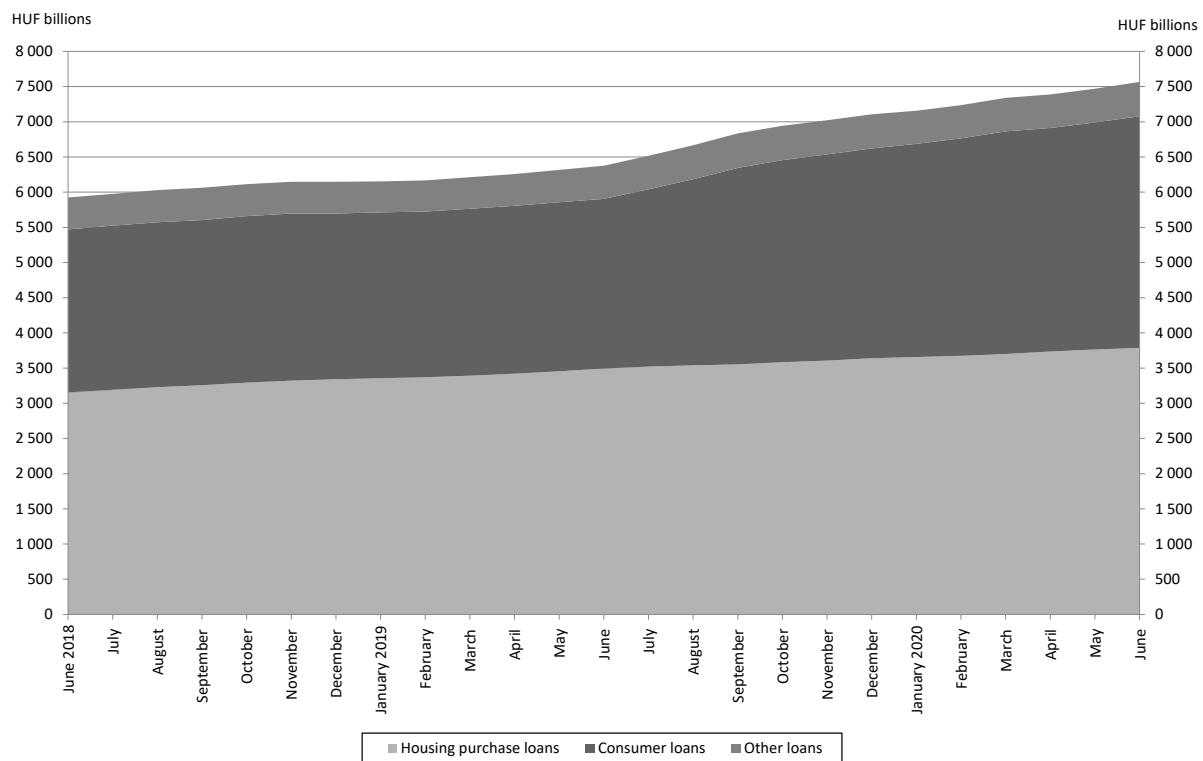

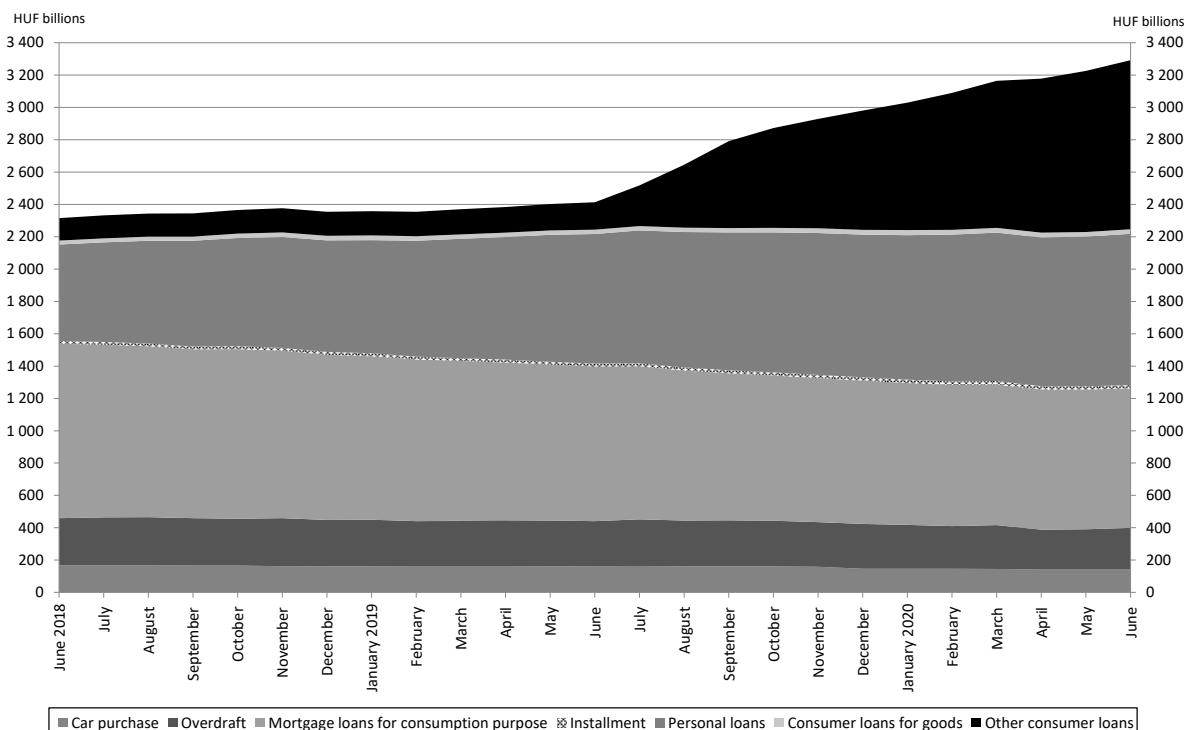

Chart 4 Stock of households' consumer loans^{4,5}

⁴ From April 2020, transactions data of both households and non-financial corporations reflect the effects of the Covid-19 pandemic and the government measures taken in response (e.g. the repayment moratorium).

⁵ The other consumer loans contains the amount of loans provided on the basis of Government Decree 44/2019 (III.12) loans to retail customers linked to the baby-expecting support.

Chart 5 Seasonally and exchange rate adjusted net new borrowing by households^{6,7}

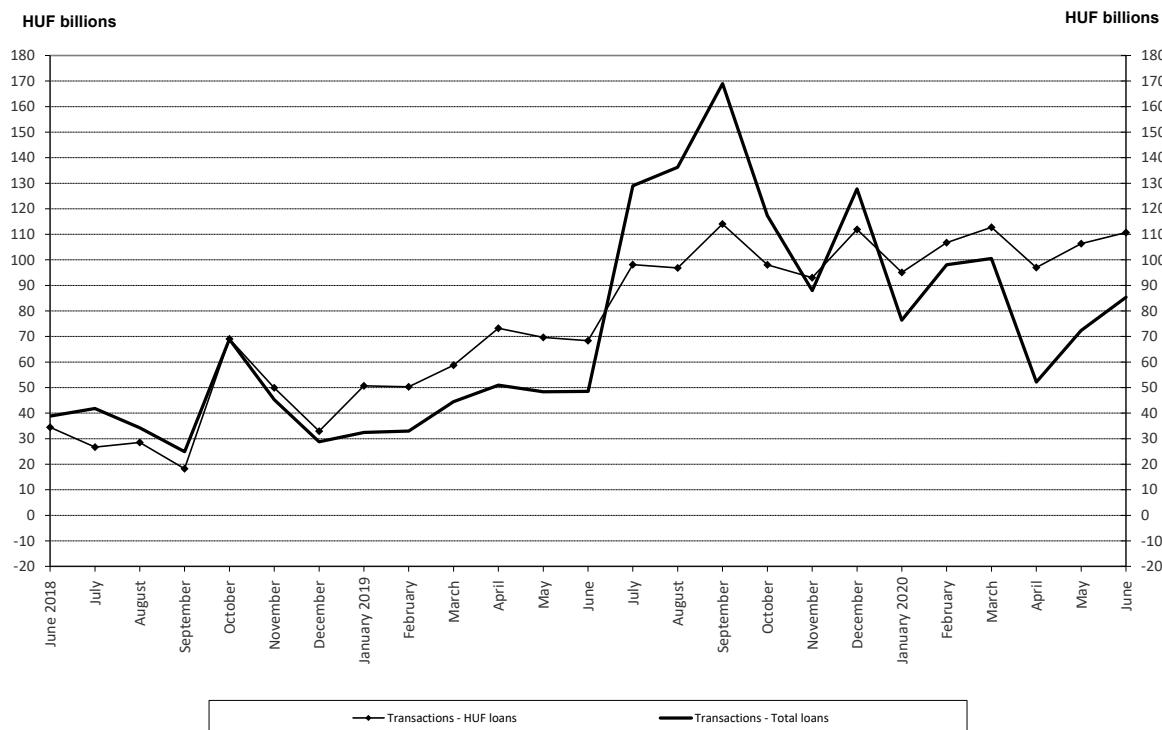

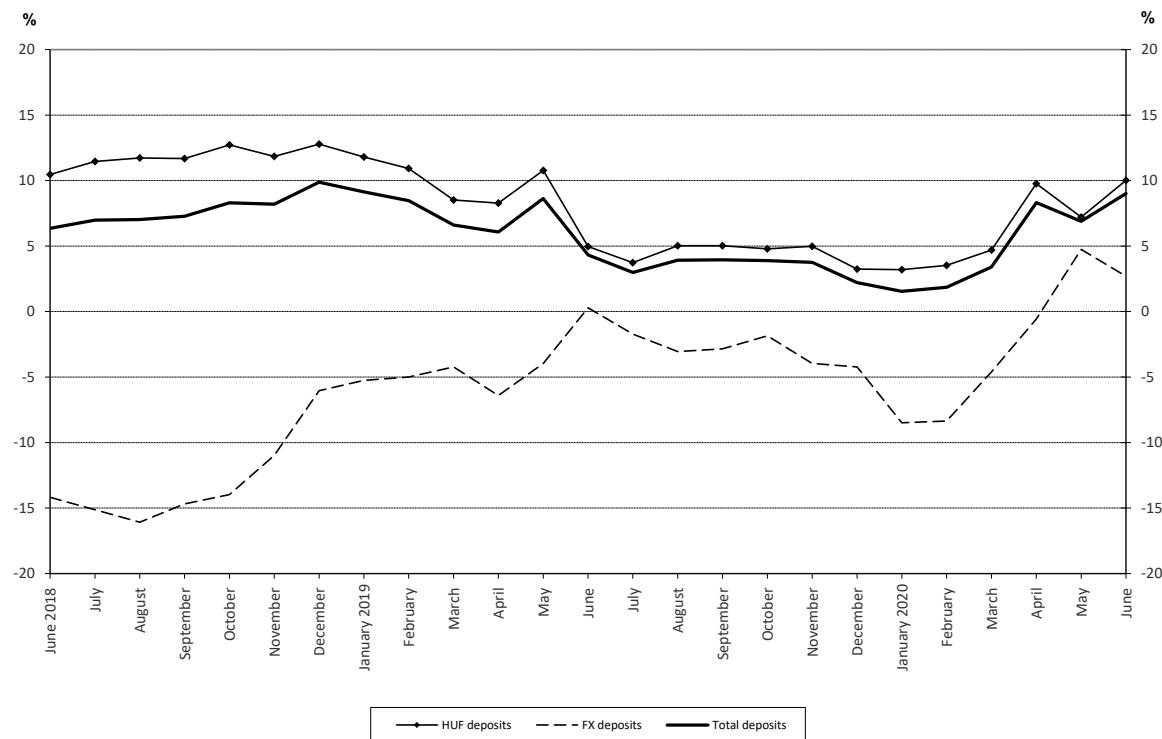

Chart 6 Annual real growth of household deposits⁸

⁶ The significant change in the stock of household overdrafts in April–May, October–November and December mainly reflected the one-off effect in the given period of disbursements to households (e.g. transfers of salaries) brought forward due to variations in working days in early November and May.

⁷ From April 2020, transactions data of both households and non-financial corporations reflect the effects of the Covid-19 pandemic and the government measures taken in response (e.g. the repayment moratorium).

⁸ Transactions-based growth rate (see the [Methodological notes](#)).
