CAMT.007.001.08 – MODIFY TRANSACTION (MT EQUIVALENT: MT298/SMT 202 PAYMENT PRIORITY CHANGE)

Scope

A direct participant can change the priority of a sent message that has not been processed yet by sending a camt.007.001.08 message. There is no response message if the change of priority was successful. If CAS is unable to change the priority, then the direct participant will receive a camt.025.001.05 message.

Format specification

- ***Document/ModfyTx/Mod/PmtId/LngBizId/TxId*** element contains the Message Identifier of the original transaction for which the priority change is required.
- ***Document/ModfyTx/Mod/PmtId/LngBizId/UETR*** element contains the UETR of the original transaction.
- ***Document/ModfyTx/Mod/PmtId/LngBizId/PmtMtd/Prtry*** element contains the former MT field L02 message type and sub-message type of the original transaction concatenated, separated by "//":
  - 3x = message type, e.g. "008" (in case of a pacs.008.001.08 messsage)
  - 3x=message subtype. If this message does not have a subtype, then it contains the same value as that of the message type. e.g. "008//008"
- ***Document/ModfyTx/Mod/NewPmtValSet/Prty/Prtry*** element contains the new priority for the payment as a numeric value.

Example

1. OTP Bank wants to change the priority of its pacs.009.001.08 message (TRN code: BT991012004, from 12 to 15.
