Foreign assets and liabilities of the central bank were Ft 272.3 billion and Ft 209 billion lower respectively.

Looking at liabilities to other monetary financial institutions, current account balances, which comprise required reserve holdings, experienced the strongest change, increasing by Ft 54 billion. Simultaneously with this, forint deposits decreased by Ft 28.4 billion and foreign currency liabilities fell by Ft 1.2 billion. The value of the other monetary financial institutions' holdings of NBH domestic bills increased by Ft 2.7 billion relative to November.

In December, the averages of central bank liabilities to other monetary financial institutions changed as follows: the average of reserve balances at the central bank increased by Ft 2.4 billion, while foreign currency liabilities decreased by Ft 36.8 billion. The average of forint deposits was up by Ft 18.7 billion on November. The average amount of NBH domestic bills held by other monetary financial institutions increased by Ft 5.4 billion in one month.
