

MAGYAR NEMZETI BANK

29 July 2011

PRESS RELEASE

Aggregated balance sheet of credit institutions: June 2011

As in the previous month, forint borrowing by households exceeded repayments in June, i.e. the sector was a net borrower, while repayments in foreign currency exceeded borrowing, i.e. the sector was a net repayer, according to unadjusted data. As a result, the stock of lending to households (excluding revaluations and other volume changes) fell in the month. Households' forint deposits rose due to transactions, while their foreign currency deposits fell, with the result that the sector's total deposits increased. Non-financial corporations borrowed less both in the forint and foreign currency than they repaid; and they placed less forint and foreign currency deposits, i.e. they made a net withdrawal of deposits in the month under review.

In June, the stock of outstanding household debt fell by HUF 21.9 billion due to transactions. Within this, forint borrowing exceeded repayments by HUF 16.9 billion and outstanding foreign currency borrowing (excluding revaluations and other volume changes) fell by HUF 38.8 billion. The sector's deposits rose by HUF 55.9 billion due to transactions, reflecting net inflows into forint deposits of HUF 65.0 billion and net withdrawals from foreign currency deposits of HUF 9.0 billion.

Outstanding forint and foreign currency debt of non-financial corporations fell by HUF 81.1 billion and HUF 4.8 billion respectively due to transactions. As a result, the sector's outstanding borrowing (excluding revaluations and other volume changes) fell by HUF 87.3 billion. Non-financial corporations' deposits fell by HUF 11.0 billion due to transactions: net withdrawals from forint and foreign currency deposits amounted to HUF 9.0 billion and HUF 2.0 billion respectively.

In June, foreign liabilities of credit institutions accounted for 27.9% of the sector's balance sheet total.

* * * * *

The seasonally adjusted data are subject to more uncertainty than usual, due to fluctuations caused by the financial crisis.

MAGYAR NEMZETI BANK STATISTICS

One of the primary statutory duties of the Magyar Nemzeti Bank is to collect and publish statistical information. The statistical press release aims to help the reader understand the latest published data. The Quarterly Report on Inflation and the Report on Financial Stability, published periodically, contain the Bank's analyses of underlying economic processes and are accessible at www.mnb.hu.
