g)) In the publication referred to in paragraph (1) in the case of decisions on the authorisation of appointments,

the MNB shall publish, in addition to the information defined in paragraph (1), the family name and first name of the officer authorised to enter into office.

(2a) The MNB shall publish the decision containing measure or exceptional measure without undue delay after its delivery to the client.

h)) The MNB shall not publish its resolution passed with regard to the measures taken in respect of or the fines imposed on the UCITS fund manager or the custodian of the UCITS, on the basis of this Act or of the Kbtv., if such publication would jeopardise the stable and smooth operation of the system of financial intermediation.

(3a) The publication obligation defined in paragraph (1) only applies to resolutions that are issued in consumer protection proceedings launched ex officio and stipulate measures, as well as to resolutions that are issued in market surveillance proceedings and stipulate measures.

b) causes disproportionate disadvantage to the natural person or legal entity,

c) jeopardises a criminal proceeding in progress, or

d) threatens the stability of financial markets.

s)) At its discretion, the MNB may postpone – for 60 days at most – the publication of the decision on the measures or extraordinary measures specified in the Hpt., Tpt., Bszt., Kbtv., Fnytv., Mpt. and Öpt. or on the imposition of a fine, if the unlawful conduct is expected to discontinue within maximum 60 days, and the infringement does not jeopardise the safe operation and the protection of the clients of the legal entity, and the stability of the system of financial intermediation.

t) a) If the MNB considers that the publication of the name and registered seat of the offender non-natural person and the name of the offender natural person specified in the final decision adopted by the MNB for the violation of the rules prescribed by Regulation 1286/2014/EU of the European Parliament and of the Council and Regulation 2017/1129/EU of the European Parliament and of the Council would be disproportionate – based on a case-by-case assessment conducted on the proportionality of the publication of such data – or the publication would jeopardise the stability of financial markets or the success of an ongoing criminal investigation, the MNB shall

a) delay the publication in accordance with paragraph (5) until the moment where the reasons for non-publication cease to exist,

b) publish the decision on an anonymous basis in accordance with paragraph (5), if such anonymous publication ensures an effective protection of the personal data concerned, or

c) not publish the decision in the event that the options laid down in subsections (a) and (b) are considered to be insufficient to ensure that the stability of financial markets would not be put in jeopardy or that the publication of the decision would be proportionate to its significance.

d) b) If the MNB decides to publish the decision on an anonymous basis based on subsection b) of paragraph (5a), the publication may be postponed for a reasonable period of time if it is envisaged that within that period the reasons for anonymous publication will cease to exist.

e) c) If the MNB considers that the publication of the name and registered seat of the offender non-natural person and the name of the offender natural person specified in the final decision adopted by the MNB for the violation of the rules prescribed by the Bit. on the distribution of insurance or reinsurance products and on the measures determined in the Enyt.

a) would be disproportionate based on a case-by-case assessment conducted on the proportionality of the

b) would jeopardise the stability of financial markets or the success of an ongoing criminal investigation,

it may decide to delay the publication in accordance with paragraph (5), not to publish the decision, or publish the decision on an anonymous basis.

c) d) If the MNB publishes its decision about the measure or exceptional measure taken due to the violation of Article 23 of the Jht. maintaining anonymity, the publication of the relevant data may be postponed until the reasons against the publication cease.

b)) The MNB shall make its decision on the measures or extraordinary measures specified in the Hpt., Jht., Tpt., Bszt., Kbftv., Bit., Fnytv., Mpt. and the Öpt. or on the imposition of a fine available on its website for at least 5 years, but not longer than for 10 years.

Article 53/A

Article 53/B (1) After notifying the person affected by the sanction of the decision to impose the sanction or the measure for the violation of Regulation No 600/2014/EU, Regulation 909/2014/EU, the Tpt. or the Bszt., the MNB shall publish on its official website, without undue delay, the decision to impose a sanction or a measure. The publication shall include at least the type and nature of the infringement and the identity of the person responsible. This obligation does not apply to decisions imposing measures that are of an investigatory nature.

(2) Where the publication of the identity of the legal entities, or the personal data of natural persons is deemed disproportionate following a case-by-case assessment conducted on the proportionality of the publication of such data, or where such publication would jeopardise the stability of financial markets or an ongoing investigation, and the options laid down in Article 53(4) and (5) would be insufficient to ensure

a) that the stability of financial markets would not be put in jeopardy;

b) the proportionality of the publication of such decisions with regard to measures which are deemed to be of a minor nature,

the MNB may decide not to publish the decision to impose the sanction or the measure.

(3) In accordance with paragraph (2), the MNB shall inform the European Securities and Markets Authority of all administrative sanctions or measures imposed but not published, including any appeal in relation thereto and the outcome thereof.

(4) The MNB shall, on an annual basis, provide the European Securities and Markets Authority with aggregate information regarding all administrative sanctions and measures imposed in accordance with paragraphs (1)–(2), save for measures that are of an investigatory nature.

(5) Where the MNB has disclosed administrative measures, sanctions or criminal sanctions to the public, it shall simultaneously report those to the European Securities and Markets Authority.

Article 54 (1) Prior to the announcement of the decision of a court proceeding in public administrative cases, the MNB may amend the performance deadline stated in its decision ex officio even if it does not violate any laws and the conditions defined in Article 55(5) do not prevail; however, the amendment shall not render the decision more burdensome for the client.

(2) In the event of any amendment to the decision, the MNB will notify the proceeding court ex officio.

Article 55 (1) The provisions of Articles 132-134, 136 and 137, and 138(2) and (3) of the Ákr. shall be applied in case of

a) the legally defined fees to be paid to the MNB,

b) the fines imposed by the MNB,

c) the procedural costs established by the MNB, as well as

d) the late payment surcharges incurred in connection with points a)-c).

(3) In case of non-payment or late payment of supervisory fees a late payment surcharge shall be paid from the due date defined in Article 168 to the day of performance.

(4) The amount of the late payment surcharge according to paragraphs (2) and (3) is three hundred and sixty-fifth of twice the central bank base rate valid at the time of charging after each calendar day.

(5) In the application submitted before the expiry of the payment deadline, the obligee may ask the MNB for a postponement of the payment obligation or permission for payment in installments (hereinafter referred to as 'payment discount') by proving that a reason beyond his control makes it impossible to pay by the deadline or it would represent a disproportionate difficulty for him. The rules contained in this paragraph and in paragraph (6) regarding the payment discount shall also be applied in the event of an obligation to perform a specific act and release a specific movable property.

(6) After the expiration of the performance deadline, the customer – provided that the execution has not yet been initiated – may request a payment discount by simultaneously submitting a request for verification for the reason specified in paragraph (5).

(7) If the MNB rejects the verification request specified in paragraph (6) and the payment discount request, it shall simultaneously decide on the initiation of enforcement.

(8) A payment discount may be granted to the obligee – at his request – if he proves during execution that the non-performance cannot be blamed on him, and that a reason beyond his control made it impossible to perform by the deadline, or would represent a disproportionate difficulty for him.

(9) Until the conditions contained in the order establishing the payment discount are met, no enforcement action may be taken against the obligee, and – from the date of receipt of the request submitted by the obligee – no late fee may be charged. If the obligee violates the conditions contained in the order establishing the payment discount, the enforcement body shall continue the enforcement for the full amount of the arrears. The MNB shall notify the enforcement body of the continuation of the enforcement and the amount of the late fee retroactively charged from the date of receipt of the request submitted by the obligee.

(10) In the case of an obligee for whom the MNB maintains a payment account, the MNB shall collect the overdue debt resulting from the decision to pay money by means of direct satisfaction.

The MNB shall declare its decision to be enforced forthwith if such enforcement is required to safeguard public interest or to protect the interests of users of the services provided by financial organisations and to ensure the uninterrupted operation of any financial market or the system of financial intermediation as a whole.

(3) If no urgent legal protection was requested in the court proceeding, the MNB may suspend the obligation or measure contested in the court proceeding or the execution thereof until the court passes a legally binding decision.

Article 56 A claim for damages or compensation against the MNB – on the grounds of damage caused or the violation of rights related to personality in the context of public administrative functions –, may be enforced if the MNB's decision or omission was unlawful and the damage sustained or the violation of rights related to personality on which the compensation claim is based was caused directly by such decision or omission, and the resolution against the MNB issued in the administrative action opened in relation to the injurious MNB decision causing the violation has become final in the event of the MNB having lost the case at least in respect of the decision or omission serving as the

grounds for damages or compensation.

Article 57 (1) The MNB may use individual data received from foreign financial supervisory authorities in the course of international cooperation within its scope of responsibilities set forth in Article 4(9) exclusively for the following purposes, and it may release data to foreign financial supervisory and resolution authorities and the organisation defined in Article 140(1) subsection *a*) for the following purposes:

(2) Data supplied or received within the framework of supervisory cooperation may be forwarded to third parties on the basis of the prior written consent of the authority providing the data, provided that all the miscellaneous conditions of forwarding data are met. The prior written consent of the authority supplying data is not necessary if the forwarding of the received data is directly necessary for the court or criminal proceedings related to the decision of the MNB or the foreign financial supervisory authority.

(3) In its administrative proceedings, the MNB shall manage the personal data obtained pursuant to this Act or the acts defined in Article 39 for a maximum period of five years from the time of termination of the data subject's status which is subject to authorisation or registration.

(4) If no administrative procedure has been opened, the MNB shall be entitled to manage the data specified in Article 51 until the conclusion of the administrative control procedure or, in the event an administrative procedure has been opened, until the resolution made or the ruling terminating the procedure becomes definitive, or until the final conclusion of the court proceedings related to the case, including any extraordinary remedy or legal remedy proceedings.

(5) Where evidence contains personal data unrelated to the subject matter of the proceedings, and the separation of the data cannot be removed without compromising the probative value of the evidence in question, the MNB shall be entitled to handle all personal data affected by the evidence, however, it shall be entitled to examine the personal data unrelated to the infringement subject to the investigation only to the extent required to ascertain that the data is not related to the infringement being investigated.

(6)

(7) The MNB may hand over secrets specified in Article 150(1) to the authority performing public supervisory auditing duties and acting within the scope of its functions. The persons exercising public supervisory powers are bound by a confidentiality obligation in terms of these secrets.

Article 57/A Article 12/A of Act XXXIV of 2004 on small and medium-sized enterprises and the supporting of their development shall not be applied in the procedures defined in Article 48(1) subsection *b*) to *d*).

(2) The MNB's decision may not be amended by the court. Appeals may be lodged against the judgement in the

first instance.

(3) If the MNB suspends the enforcement of the decision or the court grants urgent legal protection but the obliged party fulfils the stipulations of the decision nevertheless, no claims for damages shall be admitted in the context of claims as defined in Article 56.

25. Electronic communication

Article 58 (1) The MNB shall maintain communication with clients and other parties to the proceedings in writing, by way of electronic means (hereinafter referred to collectively as 'written communication') provided for in the Act CIII of 2023 on the digital state and certain rules for the provision of digital services (hereinafter referred to as 'Dáptv.'), or in person, electronically by means other than writing (hereinafter referred to collectively as 'oral communication'). In any life-threatening or potentially devastating situation the mode of communication shall be selected by the MNB. With respect to electronic communication, in the proceedings of the MNB, the provisions of the Dáptv. shall be applied with the derogations defined in paragraphs (2)–(12).

(2) With the exception of market surveillance procedures, in the course of the MNB's public authority activities as defined in Article 45, communication between the organisation, the MNB and the person defined in the procedures specified in Article I of Annex 1 shall be maintained by way of electronic means, to be performed solely through the mail storage facility dedicated to the organisation concerned in the MNB's information technology system supporting the electronic administration services of the MNB or, in the case of natural persons, in the storage facility linked to their Central Client Registry registration or through the mail storage facility dedicated to the natural person in the MNB's information technology system supporting the electronic administration services of the MNB.

(3) In the cases defined in paragraph (2), the electronic identification of the person or the organisation shall be performed in the information technology system supporting the electronic administration services of the MNB or through an electronic identification service. In the course of the MNB's public authority activities as defined in Article 45, the official contact information for the economic organisation concerned shall be the mail storage facility created and maintained by the MNB for the organisation.

(4) The MNB shall send a notification to a maximum of five electronic mail addresses specified by the organisation involved in the proceeding on any document placed by the MNB in the mail storage facility of the organisation. No legal effect lies with the notification.

(5) The document shall be deemed delivered on the working day following its placement in the mail storage facility.

(6) If the document delivered to a payment service provider is a decision taken by the MNB regarding a transfer service in the case of which the payment service provider holds continuous working days from 0.00 to 24.00 each day, for the performance of the tasks of the payment service provider stemming from the execution of the transfer – unless otherwise regulated by an act or the decree issued by the Governor of the MNB regarding the performance of payment services –, the document shall be regarded as having been delivered (unlike as provided for in Paragraph (5), after the passing of four hours following the deposition of the document at the mail storage facility).

(7) The MNB shall be notified of successful electronic delivery and of the presumption of service by way of an automatically generated electronic confirmation (electronic acknowledgement of receipt).

(8) The MNB shall retain the document in the mail storage facility until the last day of the time period open for the ordinary and extraordinary remedy options available in the given case (hereinafter referred to as 'retention period'). On the last day of the retention period the MNB shall remove the document from the mail storage facility; however, addressees subject to mandatory electronic communication may request the repeated electronic delivery of the document.

(9) If, for any reason, the mail storage facility of the MNB is dysfunctional for at least four hours on a working day, that day shall not be included in the time limit referred to in paragraph (5). The MNB shall publish the days excluded from the time limit on its website.

(9) The provision defined in paragraph (7) shall not apply to any fee charged for a service the entity or person has supplied in the course of the trial transaction before its completion, provided that it was established during the procedure that the entity or person did not violate the consumer protection regulations subject to the trial transaction. The MNB shall refund the fee of such services to the inspected entity or person immediately after the relevant resolution is adopted.

29. Control proceeding for the protection of the interest of consumers

Article 81 (1) The MNB shall, in the framework of procedures opened upon request or of its own motion, monitor compliance with

a) the compliant failed to elicit a response,

b) the complaint was not investigated in accordance with the rules applicable to the persons or organisations subject to the acts referred to in Article 39,

c) another infringement of consumer rights under the legislation referred to paragraph (1) is alleged based on the reply of the person or entity covered by the acts referred to in Article 39.

Article 82 (1) In proceedings for the protection of consumers' interests, client rights shall be conferred upon the qualified entities established under the laws of any Member State of the EEA – with respect to the consumer interests they protect – that are included in the list published in the Official Journal of the European Communities pursuant to Article 5(1) of Directive 2020/1828/EC of the European Parliament and of the Council of 25 November 2020 on representative actions for the protection of the collective interests of consumers and repealing Directive 2009/22/EC with respect to any violation of the legal provisions on the transposition of the directives referred to in Article 41(1).

(2) In proceedings for the protection of consumers' interests, client rights shall be conferred upon the foreign financial authority which has competence over the case at hand.

Article 83 (1) Proceedings for the protection of consumers' interests may not be opened after a period of five years following the time of the infringement.

(3) For continuous infringements, the time limit shall commence at the time when the infringement is terminated.

(4) Where an infringement consists in the failure to terminate a situation or circumstance, the aforementioned period shall not commence as long as such situation or circumstance continues to prevail.

(5) The administrative time limit in proceedings for the protection of consumers' interests launched upon request shall be six months.

Article 84 If, regarding all or parts of the request for the opening of proceedings for the protection of consumers' interests,

a) a control procedure has already been conducted or is in progress in respect of the entity or person affected by the request, or

b) the MNB has already adopted a decision concerning the conduct of the entity or person stated in the request on the same grounds and under the same regulations,

the MNB shall refuse the request regarding such grounds without examining its merits, or shall terminate the proceedings, and inform the client about the number of its resolution adopted in the previous procedure.

Article 85 (1) The MNB shall have powers to carry out trial transactions in the context of consumer protection procedures to verify compliance with the rules applicable to transactions.

(2) The rules defined in Article 68 (2) to (8) shall apply to trial transactions conducted in the context of consumer protection proceedings.

Article 86 (1) The MNB may hold ex officio consumer protection

a) targeted inspections,

b) thematic inspections, or

c) post-inspections

at the organisation or person subject to the acts defined in Article 39.

(2) The MNB may hold targeted consumer protection inspections for the ad hoc verification of compliance with consumer protection provisions and in the event that the violation of consumer protection provisions affects a broad group of consumers and the inspection is warranted by a need for immediate intervention.

(3) The MNB may conduct thematic consumer protection inspections of several persons and organisations for the harmonised and comparative verification of compliance with identical or similar consumer protection provisions.

(4) In the context of continuous supervision, in justified cases, the MNB shall check the fulfilment of its decisions issued in its consumer protection control procedures in the context of consumer protection post-inspections, covering the examination of data stemming from regular and extraordinary data reporting and the findings of on- and off-site

inspections.

(5) The provisions defined in Article 62 (2), Article 63 (3), Article 65 (1) to (3), Articles 66 and 67, Article 67/B, Article 70(4), Article 75 (3) to (6) and Article 77 shall be duly applied in consumer protection control procedures, with the proviso that provisions referencing a control procedure shall be interpreted as referencing the consumer protection control procedure.

(6)

Article 86/A (1) The MNB shall record its findings made in the context of consumer protection control procedures launched ex officio within nine months of the opening of targeted inspections, within one year of the opening of thematic inspections, and within four months in the case of post-inspection, and disclose such report to the person or entity under inspection.

(1a) If no infringement was established in the context of the targeted inspection or the thematic inspection, the MNB may dispense with drawing up an inspection report.

In this case, the MNB will conclude the procedure with an order which shall be communicated to the affected organisation.

(2) The inspection report shall include

a) the name of the authority, the name of the head of the inspection, the subject matter of the inspection and the case number,

b) the name and home address of the inspected person, or the name and registered office for entities, the procedural legal position of the inspected person or entity and — if such was made available to the authority — other contact details,

c) a statement advising the person or entity affected by the procedural action of his/its rights and obligations,

d) the findings of the MNB made in the context of the procedure and the underlying evidence, and

e) the assessment of such findings.

(3) In the event an act of infringement was found, the organisation and person under review shall be entitled to comment on the inspection report in writing within thirty days from the date of receipt. Should this period jeopardise the successful outcome of the procedure, the MNB may impose a shorter deadline.

(4) The MNB shall issue its decision within ninety days of receipt of the comments or from the expiry of the deadline having yielded no result.

(5) If, after the investigation report has been sent, new data, facts or information with a significant impact on the substantive investigation of the case comes to the attention of the MNB, which makes it necessary to amend or supplement the investigation report, the MNB shall amend the entire investigation report, or the supplemented part may be sent to the person or organization subject to the inspection procedure once again for the purpose of comment until the decision pursuant to paragraph (4) is made. Paragraph (3) shall be applied to the repeated comment period of the organization or person subject to the inspection procedure. The procedural deadline for the MNB's decision shall be calculated from the receipt of the comment made during the repeated comment or from the unsuccessful expiry of the deadline.

Article 87

Article 87/A (1) If the conduct of the targeted consumer protection inspection is warranted by the violation of consumer protection provisions that affects a broad group of consumers and requires immediate intervention, the MNB shall draw up its inspection report within 30 days following the launch of the control procedure and shall disclose the report to the person or entity under inspection.

(2) In the case specified in paragraph (1), the time limit applicable to submitting the comments defined in Article

86/A(3) is eight days. Should this period jeopardise the successful outcome of the procedure, the MNB may impose a shorter deadline.

(3) In especially justified cases the MNB may issue a decision prior to the receipt of the comment specified in paragraph (2), provided that it is warranted by the urgent action taken to mitigate or counter the impact of the infringement forming the grounds for the targeted inspection.

(4) The MNB shall render its final decision based on the findings shown in the inspection report and on other evidence at its disposal, as well as facts of which it is officially aware or which are in the public domain.

(5) The MNB shall indicate the reason for proceeding without the advance notice specified in Article 65(3), for reducing the time limit specified in Article 86/A(3) and the decision defined in Paragraph (3) in its decision defined in Article 86/A(4) and in paragraph (3).

Article 88 (1) If the MNB finds any infringement of the relevant consumer protection regulations or of its resolution adopted in proceedings for the protection of consumers' interests, it may impose the following legal consequences with due consideration to the criteria set out in Article 75(4) subsection *a)*, *c)* and *e)* to *i)* and to the principle of proportionality:

a) call on to take the measures, assure compliance with legal provisions, and eliminate the deficiencies found,

b) order the termination of the breach,

c) prohibit the continuation of the conduct in breach of law,

d) may set a deadline for the termination of the errors and deficiencies identified, requiring the infringing party to inform the MNB about the measures carried out to eliminate such errors and deficiencies,

e) prohibit or impose conditions on the pursuit of the activity or the supply of services that were found infringing, until the infringement is eliminated,

f) impose a consumer protection fine.

(2) Legal regulations setting out provisions for the protection of consumers may lay down additional legal consequences for violations of provisions prescribed therein.

(3) In the application of paragraph (1), the gravity of a violation shall be determined, in particular, based on the number of consumers affected, the extent and scope of the injury and the scope of the infringement.

(4) The MNB shall impose a consumer protection fine whenever

a) the same entity or person repeatedly violated the same legal provision within a period of six months following the deadline or end of the time limit set for the entity or person to comply with the obligation prescribed in the definitive resolution of the MNB establishing the infringement,

b) the infringement affects a broad range of consumers, or

c) the person or entity covered by the acts referred to in Article 39 violates its obligation to cooperate as defined in Article 108(5) without offering a legitimate excuse.

Article 89 (1) The amount of the consumer protection fine shall be between fifteen thousand forints and

a) five per cent of the annual net revenue but not exceeding one hundred million forints, of entities covered by the act on accounting whose annual net revenue is in excess of one hundred million forints, or not exceeding two billion forints if the infringement results in substantial financial injury to a broad range of consumers,

b) five million forints for entities or persons not covered by subsection *a)*, or up to ten per cent of the annual net revenue of the entity or person if the infringement concerns a broad range of consumers or results in substantial financial injury to a broad range of consumers if this exceeds five million forints, or up to fifteen million forints for entities and persons not covered by the act on accounting.

(2) The net revenue referred to in paragraph (1) shall be determined relying on the annual accounts or simplified annual accounts (hereinafter referred to collectively as 'annual accounts') filed for the financial year immediately preceding the time when the resolution establishing the infringement was adopted. If the entity or person operated for less than one year, the figures shall be annualised. If there is no reliable information available relating to net revenue for the financial year immediately preceding the time when the resolution on the infringement was adopted, the maximum of the consumer protection fine shall be determined based on the net revenue of the last financial year for which the books are officially closed. In the case of newly established entities which have no annual accounts, the business plan for the year when the procedure was opened, or where there is none, the net revenue the service provider stated upon the authority's request, calculated in accordance with the provisions of the act on accounting on interim balance sheets with the date of the opening of the procedure as the cut-off date shall be taken into consideration.

(3) In the application of paragraph (1), the net revenue of the entities specified in subsections *a)* to *d)* below shall mean:

a) for insurance companies, gross premiums;

b) for investment firms, revenues from investment services and revenues from non-trading financial transactions, including

ba) interest receivable and similar income,

bb) revenues from securities,

bc) commissions and fees received (accrued);

c) for private pension funds and voluntary mutual funds, membership payments related to operating activities; for voluntary mutual health funds and mutual provident societies, membership fees of the operational fund; and for institutions for occupational retirement provision, the employers' and members' contributions related to operational activities;

d) for credit institutions and financial enterprises:

dd) net profit on financial operations, if positive,

e) in the case of commodity dealers, the sum total of

ea) net revenue from commodity exchange services, and

eb) gains arising from financial operations,

f) in the case of payment institutions, the sum total of

fa) net revenues from payment service activities, and

fb) gains arising from financial operations,

g) in the case of credit servicers and credit purchasers, the total sum of

ga) net revenues from credit servicing credit purchasing activities

gb) gains arising from financial operations

(4) In the application of paragraph (1), where the figures in the annual accounts of an entity or person are stated in a foreign currency, they shall be translated to forints based on the official exchange rate quoted by the MNB for the day of closing of the financial year of the entity or person, or in the case of newly established service providers, for the

last day of the previous year.

Article 89/A (1) If the MNB checks compliance with consumer protection provisions in the context of the control procedure, the provisions defined in Article 81(1) and (2) and Articles 83 to 89 shall be duly applied..

(2) If, in the course of its control procedure, the MNB detects any violation of consumer protection provisions, it may resort to the measures defined in Articles 88 and 89.

(3) If, in addition to the cases described in Article 75(1) subsections *a)* and *b)*, consumer protection regulations have also been violated as evidenced by the facts of the case established in the control procedure, the MNB shall have the option to order a collective sanction for all such violations, applying the measures provided for in Articles 75 and 76.

Article 89/B

30. Market surveillance proceeding

Article 90 (1) The MNB shall initiate a market surveillance procedure

(1) upon any suspicion of operation conducted without authorisation or in the absence of notification in the fields of financial services and activities auxiliary to financial services, exchange market and commodity exchange services, investment fund management, central depository services, voluntary mutual insurance services, private pension services, insurance and reinsurance services, occupational retirement provision, investment services, activities auxiliary to investment services, crowdfunding services, crypto asset services, intermediation (agency) activities, electronic money selling activities, fiduciary asset management, credit servicing and credit purchasing activities,

(2) upon any suspicion of insider dealing or market manipulation, and unlawful disclosure of insider information,

(3) for the purpose of verifying compliance with the obligation of notification and publication relating to persons discharging managerial responsibilities according to Regulation 596/2014/EU and, where applicable, persons closely associated with them according to Regulation 596/2014/EU,

(4) for the purpose of verifying compliance with regulations relating to acquisitions,

(5) for the purpose of verifying compliance with regulations applicable to the obligation of notification and publication referred to in Articles 5 to 8 and to the restrictions on uncovered transactions referred to in Articles 12 to 14 of Regulation No 236/2012/EU of the European Parliament and of the Council

[subsections *a)* to *e)* hereinafter referred to collectively as 'market surveillance procedure'],

(6) 'Pan-European individual pension product' under Regulation (EU) 2019/1238 of the European Parliament and of the Council in case of suspicion of offering or marketing products bearing the mark "PEPP" without registration.

(2) Calculated from the date of opening the proceedings ex officio, the administrative time limit in the market surveillance procedures defined in paragraph (1) subsections *a)*-*f)* shall be

a) six months for conducting the administrative control procedure, and

b) in the event an act of infringement was found, an additional three months for conducting the administrative procedure.

(3) At the MNB's request stating the reason and purpose, the persons and entities covered by the acts referred to in Article 39(1) and (2a) shall, in connection with a market surveillance procedure and of the procedure as relating to a client:

a) produce documents, electronically recorded data, signals or recorded phone conversations,

b) provide other information, and

c) disclose any personal data which the MNB is authorised to manage under separate legislation.

(4) The provisions contained in Article 70(1) of Act CXLI of 1997 on real estate registration shall not apply to the MNB's inquiries from the electronic real estate registration database made for reasons of market surveillance.

(5) The MNB shall have the right to manage any data it has obtained under paragraph (3) subsection c) and paragraph (4)

a) until the conclusion of the administrative control procedure defined in paragraph (2) subsection a) if based on the procedure, the MNB did not open an administrative procedure or commence criminal proceedings,

b) until the execution of the decision to impose sanction adopted during the administrative procedure defined in paragraph (2) subsection b) or until the term of limitation of enforceability, or

c) until the final conclusion of the legal proceedings - including extraordinary remedy procedure and redress procedures – related to the market surveillance procedure if the MNB's decision has been appealed in an administrative action or the MNB has initiated criminal proceedings.

(6) In the case of the provisions of paragraph (1), the MNB may conduct a supervisory inspection instead of a market surveillance procedure. In the course of a supervisory inspection launched to investigate the market surveillance provisions, the provisions of Article 91(1) shall be applied.

(7)–(9)

Article 90/A (1) On-site searches performed in the context of market surveillance procedures to find means of proof pertaining to the infringement forming the object of the inspection may be conducted – unlike on-site inspections in accordance with Article 67 – against the will of the owner (holder) or the persons present on site or in their absence at any location where evidence necessary to clarify the facts of the case can be found. In this context, the opening of locked areas, buildings or rooms by force is allowed. If deemed necessary for the successful and safe conduct of the on-site search defined in this Article, the MNB may ask for police assistance.

(2) On-site searches of the private purpose or private use property, vehicle or data carrier not reported as the client's residential address, registered office or business premises and otherwise not used by the client for conducting economic activity may only be conducted if such are used by a natural person that is a client during the procedure, or if other than a natural person, the client's executive officer, employee, agent or — if other than a natural person — a person exercising actual control over the client, or held such capacity during the period under inspection.

(3) On-site searches within the meaning of this Article may only be performed in possession of a preliminary judicial authorisation.

(4)

(5) The on-site search may be conducted within 15 days of issuance of the judicial authorisation.

(6) The market surveillance procedure must be opened simultaneously to the start of the on-site search at the latest, stating this fact on-location to the client present, including the client's employee present, and to other clients by phone or electronic mail, alongside commencing notification in accordance with the general rules pertaining to notification.

(7) The affected party present shall be notified of the on-site search simultaneously to the start of the on-site search, and the court ruling authorising the on-site search and the purpose of the search shall be stated prior to commencing the search. The on-site search should be conducted in the presence of the affected party, where possible. If the affected party is unable to attend, the cooperation of an authorised witness must be requested. During the on-site search, the person performing the search may request spoken or written clarifications and explanations from the affected parties, or may otherwise obtain information on-site.

(8) On-site searches may be conducted — unless another time is better suitable for the purposes of the inspection — on working days between 8:00 am and 8:00 pm. In the case specified in paragraph (3), the on-site search shall be

conducted so as to avoid any disproportionate restriction of the affected party's personal life, and to cause the least amount of disturbance in the work and regular activities of the affected party.

(9) During the on-site searches, the MNB's employee is entitled to make copies of, seize or sequester means of proof not linked to the object of the market surveillance procedure and not specified in the court authorisation, but otherwise warranting the launch of a market surveillance procedure. The judicial authorisation defined in paragraph (3) in respect of such means of proof must be procured subsequently; any means of proof found cannot be used as evidence in the absence of subsequent judicial authorisation.

(10) Requests for subsequent judicial authorisation in accordance with paragraph (9) must be submitted at the latest within fifteen days of the conduct of the on-site search.

Article 90/B (1) If during the on-site search, the inspection of the data carrier at the location is not possible without restricting the normal performance of the affected activity for a disproportionately long time, or the affected party otherwise gives its content, the person conducting the search may make copies of the data found on the data carrier and any documents (hereinafter referred to as: 'copy of seized items').

(2) The record taken of the on-site search must specify the type and individual identification data of the data carrier used to record the copy, the type of the copied data and documents, and unique identification features of the copy, as well as any other data necessary for subsequently confirming their unaltered nature.

(3) The person conducting the on-site search shall perform this for means of proof using the work copy of the data and documents constituting the copy of the seized items (hereinafter referred to as: 'inspectional work copy'). The person conducting the on-site search shall make a separate electronic or hardcopy copy (hereinafter referred to as: 'evidence summary') of the evidence it intends to use and shall send a description of the data and documents included in the summary and enabling to their individual identification to the client who had possession of the data carrier of regarding whom a copy of the seized items within the meaning of Article 90/A(2) was made on-site, with a time limit of eight days.

(4) When making the inspectional work copy, the electronic copy of the data stored on the data carrier shall be recorded in a manner preventing the subsequent altering of the data, or — if this is not possible due to the type of data carrier — the procedure used to record the data shall ensure the possibility to subsequently check the unaltered nature of the data.

Article 90/C (1) The provisions of Act LXXVIII of 2017 on Attorneys (hereinafter referred to as 'Üttv.') on the protection of documents prepared for the purpose of defence shall be applied with the derogations defined in this Article.

(2) Documents may be seized in the context of an on-site search in cases other than that defined in Article 13(5) of the Üttv. if

a) a copy of the searched item is made,

b) only an affected party that was not authorised to represent the client or the affected attorney in terms of the issuance of a declaration qualifying the documents as documents prepared for defence was present during the procedural action taken.

(3) If the person conducting the on-site search disagrees with the declaration qualifying the documents as documents prepared for the purpose of defence, or in the case specified in paragraph (2), the document or the copy of searched items that contains the document must be stored on a storage device, in accordance with Article 13(5) of

the Üttv., that is closed by the affected party and the person conducting the on-site search authenticated with their signature in a manner that the storage device cannot be opened without breaking the authentication (hereinafter referred to as: 'closed storage device').

(4) In the cases specified in paragraph (2) subsections *a)* and *b)*, the affected client must be requested — accurately specifying the document or portion thereof — to issue a statement on whether any of the seized documents qualify as documents prepared for defence. The affected client must simultaneously be notified that the procedural

action specified in paragraph (7) will be applied to documents qualified as such by the client. The notification shall specify the time and date, expected duration and location of the procedural action, leaving at least eight days for the client to issue a statement.

(5) The closed storage device may only be opened, and the documents or copy of the searched items contained on the storage device may only be inspected once the time limit for the issuance of a statement specified in paragraph (4) has lapsed. If the client issues a statement within the time limit to the effect that the storage device contains documents prepared for defence or that the copy of the searched items contain such documents, the closed storage device may only be opened in the context of procedural action defined in paragraphs (7) and (10), and the copy of the searched items shall be placed back in the closed storage device after the action is completed.

(6) Documents in respect of which the affected client did not issue such a statement at the time of seizure by the MNB or within the time limit specified in paragraph (4) cannot be treated as documents prepared for defence. No justification will be accepted to explain any failure to meet the time limit specified in Paragraph (4).

(7) If according to the affected client's statement, the seized documents include documents prepared for defence, these documents must be sorted from the other documents in the presence of the affected client — by using a copy enabling the separation of data (hereinafter referred to as: 'intermediate work copy') in the case of the copy of the searched items — and handed over to the affected client, and an inspectional work copy made of the intermediate work copy not including any documents prepared for defence, and the intermediate work copy must then be immediately deleted by physically destroying the data carrier holding the intermediate work copy, or applying a procedure preventing the restoration of data or by deleting the data. If contrary to the client's statement, the document does not qualify as a document prepared for defence according to the person conducting the on-site search, the contested document or the intermediate work copy containing it shall be placed in a closed storage device. The decision of a duly notified affected client to remain absent from the search shall not affect the performance of the procedural action.

(8) In the event of a non-litigious procedure commenced in the matter of the classification of the document, the MNB shall append to its request the document or the closed storage device containing the intermediate work copy thereof, provided that this is permitted by the dimensions and weight of the storage device.

(9) If, in respect of the documents contained in the intermediate work copy and if the separation of documents is not possible without harming their evidentiary value, the court shall specify in an order the document or portion of document that qualifies as a document prepared for defence, and shall issue the intermediate work copy or the document in a closed storage device to the MNB subject to the limitation referred to in paragraph (8).

(10) The closed storage device may only be issued to the MNB as per paragraph (9), the data contained in it may only be inspected for the purpose of making an inspectional work copy of the intermediate work copy not containing any documents prepared for defence or for inspecting the part of the document not qualifying as a document prepared for defence in the presence of the affected client, and the documents shall be handed over to the client afterwards, and the intermediate work copy must then be immediately deleted by physically destroying the data carrier holding the intermediate work copy, or applying a procedure preventing the restoration of data or by deleting the data. If the account turnover proves that the suspected implication of the inspected person is not substantiated, the inspected person will not be involved as a client in the MNB's market surveillance procedure, however the MNB shall notify it of the verification of the account turnover. If the account turnover proves that the suspected implication of the inspected person is substantiated, the inspected person will be involved as a client in the MNB's market surveillance procedure.

c) shall impose a market surveillance fine in the cases specified in subsections *a)* and *b)*.

(4) In addition to the provisions of the Ákr., the MNB may impose provisional protective measures in order to enforce its decision adopted in market surveillance procedures in cases where it is deemed justified with a view to ascertaining the recovery of the market surveillance fine or for protecting the interests of the clients of persons or entities engaged in activities without a license or without prior notification. In addition to the provisions of the Ákr., the MNB may impose protective measures in order to enforce its decision adopted in market surveillance procedures in cases where it is deemed justified with a view to ascertaining the recovery of the market surveillance fine or for protecting the interests of the clients of persons or entities engaged in activities without a license or without prior notification. The MNB shall directly notify the affected financial organisations of the provisional protective measures and protective measures imposed by it in the context of market surveillance procedures, in the interest of immediate implementation.

(6) Where the MNB controls compliance with market surveillance regulations within the framework of a control procedure, Articles 90 and 91 shall also be applicable to such procedures.

(7) If the MNB finds any infringement of market surveillance regulations within the framework of the control procedure, it may impose the measures described in paragraphs (1) to (5) hereof for such infringements.

(8) If, in addition to the cases described in Article 75(1), market surveillance regulations have also been violated as evidenced by the facts of the case established in the control procedure, the MNB shall have the option to order a collective sanction for all such violations, including the measures set forth in paragraphs (1) to (5) hereof in addition to the measures provided for in Articles 75 and 76.

(9) If in the course of its market surveillance procedure the MNB finds any infringement of the statutory provision relating to the persons and entities covered by the acts referred to in Article 39, or any violation of MNB's resolutions, the measures described in Article 75 may be imposed for such infringements.

(3) If criminal proceedings are pending in connection with an activity investigated in the market surveillance proceedings conducted by the MNB, the MNB shall simultaneously notify the criminal court, prosecutor's office or investigating authority, if it deems it necessary, to take and terminate the interim measure. The protection of electronic data establishes the applicability of a criminal coercive measure for the temporary unavailability of electronic data and a criminal law measure for the permanent unavailability of electronic data.

(4) For the application of the temporary unavailability of electronic data as a precautionary measure Article 91/A(2) to (8) shall apply otherwise.

The entity or person shall not be bound by such statement if it is able to demonstrate that the statement was withdrawn before the conclusion of the contract in the same manner that it had been undertaken.

Article 107 The Financial Arbitration Board shall reject the request in writing, without a hearing if there is evidence that

a) for the same subject under the same factual grounds between the parties

aa) proceedings have been initiated with the Financial Arbitration Board,

ab) mediation proceedings have been initiated, or

ac) a court action is in progress or a binding decision or judgement has been adopted with respect to the same subject;

Article 108 (1) The Financial Arbitration Board shall in due time notify the parties regarding the scheduled time of the hearing, or if it plans to lodge a motion to proceed without hearing, with a copy of the request attached.

(1a) The notice referred to in paragraph (1) shall also include that

(1) before agreeing to the negotiated settlement offer, the consumer may freely decide whether it accepts the recommendation of the Financial Arbitration Board, the negotiated settlement offer or the binding decision,

(2) participation in the proceedings does not preclude the possibility of seeking redress through court proceedings,

(3) the content of the decision may be different from the court decision, and whether

(4) the person or entity covered by the acts referred to in Article 39 has filed the general statement of submission defined in Article 103(1).

(5)) The notice referred to in paragraph (1) shall include an indication of the legal effect of the decisions adopted in the proceedings of the Financial Arbitration Board and shall inform the parties that they are not obligated to retain a lawyer or legal advisor, but they may seek independent advice or be represented or assisted by a third party at any stage of the procedure. The notice shall include the expected length of time of the proceedings and the possibility of extending the duration of the proceedings.

(2) In the notice, the person or entity covered by the acts referred to in Article 39 shall be requested to file a written statement (response) within 15 days of receipt of the notice with regard to the legitimacy of the consumer's claim, the circumstances of the case, on the failure to settle the consumer complaint, or the reason for refusing an equitable procedure, and acceptance of the decision of the panel as binding (submission), identifying in the statement the facts and evidence in support of its position and attaching any documents (or copies thereof) invoked as evidence. The person or entity covered by the acts referred to in Article 39 shall be advised that it is required to ensure the participation of a person authorised to conclude a settlement at the hearing, and that in the event of its failure to file a statement regarding the merits of the case, the council shall pass its decision based on the information at its disposal. (4) If the person or entity covered by the acts referred to in Article 39 fails to file a response, the Financial Arbitration Board shall continue the proceedings, however, if such failure shall not be construed as acceptance of the requesting person's claims.

(5) The person or entity covered by the acts referred to in Article 39 is obliged to cooperate in the proceedings of the Financial Arbitration Board; in this context, it is required to send its response, with the content and by the deadline defined in paragraph (2), to the Financial Arbitration Board.
